MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Personnel Recruitment for NPIC

2. In the discussion on Friday, 10 September 1965, attended by Messrs. [redacted] of this office, we proposed the creation of a task force as the most appropriate mechanism for the expeditious handling of this personnel requirement. This task force, physically located at NPIC but with its professional staff supplied by, and its functions fully coordinated with, the Office of Personnel, will be organized to expedite both the recruitment of personnel and the processing of applicants. The jobs to be performed by this task force will require about 14 people who will be integrated, in most areas, with the present Personnel Branch, Support Staff, NPIC. Acquiring the slots to staff the task force is primarily the responsibility of the DDS, though, if the situation develops where the DDS cannot provide them, NPIC will use some of its new authorization in order to get the activity moving.

3. We believe that the task force approach, combined with such actions as the reinstatement of the Unclassified Training Program, the establishment of a cooperative educational program and other actions discussed with you, and the expeditious handling of applicants by the Office of Medical Services and the Office of Security, will provide the best means of attaining the goal [redacted]
